

WE CAME TOGETHER
by the Village Temple Children's Choir
and Anita Hollander

4/14/21

(MUSIC)

We came together, through night and day, We used computers to work and play
Learned to adapt ourselves to techno-tricks, We came together like co-pilots

(MUSIC)

At first chaotic and out of whack, We took for granted what soon we'd lack
'Cause when the schools closed we went remote, Took concentration to stay a-float

While the world around us spun out of control,
The news showed us that violence & hate were on a roll.
Our leadership was scary and hard to look upon,
We tried to find new leaders who were kind and calm.

(MUSIC)

We're glad the temple responded quick, They fed the hungry and helped the sick
And then on Chanukah and Purim too, We came together to sing for you.

Alex and Kalix and two Julias, A Rabbi & Anita & Liotte & Maz the Dog,
They taught us to be hopeful though we were feeling weird
That kindness lasts forever and we persevered.

(MUSIC)

Essential workers all on the go, And all the teachers on overload
Those on the front lines who saved our lives, They came together and we survived.

Dad was goin' crazy, Mom needed a break,
Grandma couldn't hug us and our friends were far away.
Some of us stayed put while a lot of us left town,
Through windows and TV we watched the worldddd slowww downnnn.

(KEY CHANGE)

And now it's changing, it feels like new. How do we do things we used to do?
We learned through hardship to get along, We learned together we can be strong...
We Came Together, And we are strong.
